

# Third Meeting

---

Oct. 9th 18:00 ~ 09:00

CS 1257

People : Sam Patterson, Joshua Chaimson, Will Roberts, Mingren Shen, Jason Waner

## Things done

---

1. List out the details components of GUI
2. Communicate between Front end and back End
3. Class Models and database table fields are added

## Things to be done

---

1. Testing Plan : Still unclear how to test our software ==> your plans for unit testing (approach, when are they created, when are they run), integration testing (what order), system testing (what kind), regression testing (how are you going to organize and run them).
2. More details are needed for the first three parts
3. UML figures are needed
